

BHUPENDRA NANDULAL PATIL

Full Stack Developer | Python · FastAPI · React.js · Node.js · REST APIs · MongoDB · PostgreSQL
☐ 7499331192 | bhupendrpatil6639@gmail.com | github.com/bhupendra6639 | linkedin.com/in/bhupendr-patil-a1379b316

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with proven experience building scalable RESTful APIs using Python and FastAPI, and responsive web applications using React.js and Node.js. Skilled in data persistence with PostgreSQL and MongoDB using ORM (SQLAlchemy), JWT-based authentication, and Agile/Scrum development methodologies. Familiar with Supervised and Unsupervised Machine Learning concepts and interested in applying AI/ML to real-world applications. Demonstrated ability to deliver end-to-end features, perform code reviews, and collaborate cross-functionally in team environments.

TECHNICAL SKILLS

Languages:	Python, JavaScript, Java
Backend:	FastAPI, Flask, Node.js, Express.js, RESTful APIs, Web APIs, Minimal APIs, JWT Authentication
Frontend:	React.js, React Native, TypeScript (familiar), HTML5, CSS3, Tailwind CSS
Databases:	PostgreSQL, MongoDB (NoSQL), SQL Server, SQLAlchemy ORM, Alembic migrations
Messaging/Big Data:	Familiar with streaming & messaging technologies; exposure to Databricks/Snowflake concepts
AI / ML:	Supervised Learning (Linear Regression, Logistic Regression, Decision Trees, SVM, KNN), Unsupervised Learning (K-Means, PCA), Scikit-learn, NumPy, Pandas, Matplotlib
Tools & Platforms:	Git, GitHub, Postman, Swagger (OpenAPI), Axios, JSON Server, Jupyter Notebook, Agile/Scrum
Cloud (Familiar):	Microsoft Azure concepts — Azure App Services, Azure Functions, Azure SQL Database, Azure Storage

WORK EXPERIENCE

Full Stack Developer | Rbriccks Technologies Pvt Ltd, Pune

Jun 2025 – Present

- Designed and developed scalable RESTful APIs using Python and FastAPI, implementing request/response validation and role-based access control (RBAC) aligned with business requirements.
- Performed CRUD operations with PostgreSQL using SQLAlchemy ORM; documented all APIs via Swagger (OpenAPI) and tested using Postman.
- Built responsive, reusable UI components using React.js and Tailwind CSS; integrated frontend with backend services via Axios following Agile/Scrum sprint workflows.
- Conducted code reviews to enforce coding standards and improve API performance; used JSON Server to simulate SQL/MongoDB backends during prototyping phase.
- Collaborated with cross-functional teams to translate business requirements into architectural design and technical specifications.

Full Stack Developer | FSPL, Pune

Mar 2025 – Jun 2025

- Built React.js-based frontend using modern component architecture and reusable UI components integrated with backend RESTful APIs.
- Performed CRUD operations on non-relational (NoSQL/MongoDB) databases and validated API behavior using Postman in an Agile team environment.
- Collaborated with team members to improve existing features, implement best practices, and ensure code quality through peer reviews.

PROJECTS

Shoes E-Commerce Web Application — *Python, FastAPI, JWT, PostgreSQL, SQLAlchemy, React.js, Axios, Swagger*

- Developed scalable RESTful APIs using FastAPI for products, cart, orders, and user management modules with full request/response validation.
- Implemented JWT-based authentication with Role-Based Access Control (RBAC) ensuring secure, multi-role access to the application.
- Designed data persistence layer using PostgreSQL with SQLAlchemy ORM and managed schema migrations via Alembic; documented all APIs through Swagger (OpenAPI).
- Integrated React.js frontend with backend APIs using Axios; contributed to architectural decisions to ensure scalability and alignment with business objectives.

Parcel Delivery Mobile Application — *React.js, Node.js, Express.js, MongoDB, Postman, GitHub*

- Developed a full-stack parcel delivery system to manage pickup, delivery, and real-time status tracking across user and admin roles.
- Built RESTful APIs using Node.js and Express.js; used MongoDB (NoSQL) for flexible data storage of users and parcel records.
- Implemented CRUD operations, tested all endpoints using Postman, and maintained version control via GitHub following collaborative development practices.

EDUCATION

Bachelor of Computer Applications (BCA) | R.C. Patel ACS College, Shirpur 2022 – 2025
CGPA: 9.60 / 10.00 (Nashik Board)

HSC — Nashik Board | I.G.M.V. Junior College, Dharagaon, Jalgaon 2022
Percentage: 86.67%

SSC — Nashik Board | I.G.M.V. Junior School, Dharagaon, Jalgaon 2020
Percentage: 92%

KEY STRENGTHS & DOMAIN EXPOSURE

- API Development & Integration: RESTful APIs, Web APIs, FastAPI, Flask, Express.js, Swagger/OpenAPI, Postman
- Data Persistence & ORM: PostgreSQL, MongoDB (NoSQL), SQLAlchemy ORM, Alembic, SQL Server
- Frontend Technologies: React.js, TypeScript (familiar), HTML5, CSS3, Tailwind CSS, Axios
- Agile/Scrum: Familiar with sprint planning, code reviews, stakeholder collaboration, and iterative delivery
- Machine Learning & AI: Supervised/Unsupervised learning, Scikit-learn, Pandas, NumPy — interest in healthcare AI applications
- Soft Skills: Strong written and verbal communication, mentoring junior developers, cross-team collaboration, requirement analysis
